

## FIBRAN-FILM

FIBRAN-FILM is a bag impermeable to fats and aromas that has very low permeability to water vapour and oxygen. With suitable refrigeration **foods can be maintained aromatic and tasty for several months.**

FIBRAN-FILM is **flexible** and also has a **high mechanical resistance**. It comes in a transparent format or top-quality printed.

It is suitable for **packaging food that contains fats and which is cooked**, such as Mortadela sausage and all types of cooked meats that take the form of moulds. It is also suitable for packaging spices such as pepper and paprika, marzipan figures and grated cheese.
